BOOGE BOSSSES UNMASKED BY SENSATIONAL CHARGE

Governor Cox Produces Proof to
Show Total Fund Over
\$15,000,000

Pittsburgh, Pa., Aug. 26.—Gov. Cox tonight, speaking in the Syria Mosque of this city, made public the evidence in support of his charge that the Republican leaders have conspired to purchase the presidency of the United States.

Producing document after document which had been distributed from Republican headquarters, some of which showed on their face that they had been intended only for the secret reading of the inner circle, Gov. Cox showed that a meeting had been held in Chicago, which had been addressed by National Chairman Hays, and at which quota sheets had been distributed calling for the raising of over \$3,000,000 in 51 cities of 27 states.

He went on to show from official bulletins and telegrams coming from the office of the treasurer of the Republican national committee that in nearly every part of the Union—in cities and states which found no mention in this official statement of the expected sums to be raised, an equally aggressive campaign had been carried on among business men and that it has been successful.

A capacity audience at Syria Mosque said to have 3,800 seats, cheered Gov. Cox's address. The applause was heightened by tin horns, hung at each seat, which screamed their approval of the governor's statement.

Gov. Cox mixed his prepared address humorous and sarcastic references to the reports of Republican subscriptions, and he laughed with the crowd at his thrusts.

To show the secrecy with which the work had been done, he quoted from official bulletins, in which phrases such as these occurred:

"Our readers are requested not to make this publication public."
"The name and amounts subscribed by donors should not be made public locally."

The quota list which Gov. Cox asserted was distributed at the Chicago meeting follows.

New York \$2,000,000.
Chicago \$750,000.
Philadelphia \$500,000.
Detroit \$450,000.
Pittsburgh and Cleveland each \$400,000.
Boston \$300,000.
Cincinnati \$260,000.
St. Louis and Buffalo each \$250,000.

San Francisco and Los Angeles each \$150,000.

Indianapolis \$125,000.
Toledo, Columbus, Seattle, Minneapolis, St. Paul, Providence and Newark each \$100,000.

Youngstown and Akron each \$80,000.

Oakland and Milwaukee each \$75,000.

Dayton \$60,000.

Baltimore, New Orleans, Rochester, Kansas City, Denver, New Haven, Omaha, Sessanton, Spokane, Syracuse, Bridgeport, Conn., Washington, Louisville, Des Moines, Schenectady, Portland and Birmingham each \$50,000.

Canton, O. \$40,000.

Worcester, Mass., Lynn, Mass., Albany, Atlanta, Memphis, Duluth, Jersey City and Lowell, Mass., each \$25,000.

Totals \$8,145,000.

Evidence of Larger Fund

That the reputed attempt to raise \$8,145,000 from fifty-one cities in twenty-seven of the forty-eight States is fair evidence that the total national fund will be much larger, was declared by Mr. Cox, who said big business men were prominent on the Republican Ways and Means Committee and that the raising of funds was on a business "salesmanship" basis.

Mr. Cox also quoted from statements in the "Republican Bulletin" that State and county organizations were not to be "disturbed or retarded in their activities."

Mr. and Mrs. A. W. Logan returned to their home here, last Wednesday, after spending a few weeks in Rochester, Minn., where Mr. Logan underwent an operation in the Mayo Hospital. Mr. Logan is greatly improved in health.

LIGHTNING GETS IN DESTRUCTIVE WORK

Lightning struck the barn of Mr. A. A. Sheffield, across the river from this city, Monday evening, setting it on fire and thus destroying the building and all its contents. The estimated worth of the barn is about \$700 with \$600 insurance. Contents destroyed were 41,000 lbs. of hay worth \$615, with \$200 insurance; \$150 worth of farming implements, totally covered by insurance; \$1000 worth of weatherboarding belonging to Mr. Rowan Holbrook, not covered by insurance.

A large barn belonging to Mr. Thomas Richardson, near Goshen, this county, was struck by lightning and burned the same evening. The contents of the barn consisting of a good young horse, new buggy, 2 row corn planter, and a considerable quantity of hay and oats were also destroyed. It is reported that he had no insurance. The barn and contents had been entirely consumed 30 minutes from the time it caught on fire.

DISTINGUISHED LECTURER VISITS OHIO COUNTY

Dr. S. E. Brewster, of Cleveland, Ohio, representing the American Red Cross, was in the county Monday and Tuesday. He delivered an address to a number of Red Cross workers here Monday afternoon and lectured at Goshen Monday evening and Fordsville, Tuesday evening.

Dr. Brewster has visited most of the countries in Eurasia and spent four years in Africa. While the World War was in progress he was sent as a member of a commission to study conditions on the Western Battle front. This was not his first visit to Ohio County, as he was one of the principal speakers at the Farmers Chatauqua held at Beaver Dam last year.

FOUND GUILTY OF DESERTION; GETS FOUR YEARS

Draft Evader Receives Dishonorable Discharge in New York State

Bergdoll, of Philadelphia, Penn., has been found to be guilty of desertion from the army in having evaded the draft and sentenced to serve four years at hard labor at Ft. Leavenworth, it was announced here at Governor's Island.

Lieutenant Colonel C. C. Cresson, Trial Judge Advocate in the Bergdoll case, who made the announcement, said that Bergdoll also had received a dishonorable discharge from the army and forfeited all pay and allowances.

Bergdoll received his sentence calmly, it was stated at the island, and made no comment. He will be taken to Ft. Leavenworth within a few days under a heavy guard, army authorities said.

Erwin and his brother, Grover Cleveland Bergdoll, were known as "the millionaire draft dodgers." Grover now is being sought by the military authorities, having escaped from an armed guard at Philadelphia after having been convicted by an army Court-martial for draft evasion.

After eluding successfully a nationwide search by military authorities for months, Erwin appeared at Governor's Island several weeks ago and voluntarily surrendered for trial.

DOUBLE ESCAPE

Mr. Mack Foreman and Miss Diecie Draper accompanied by Mr. Silas Foreman and Miss Wilma Boswell, motored to Rockport, Ind., last Thursday, where both couples were united in matrimony.

The Foreman boys are sons of Mr. Dudley Foreman, of the New Baymus neighborhood, and are splendid young men. Mack served with the A. E. F. in France doing the World War. Mrs. Silas Foreman is a daughter of Mr. and Mrs. T. S. Boswell, of the Oak Grove vicinity. Mrs. Mack Foreman is a cousin of Mr. Tom Smith, of near Hartford, and has made her home with Mr. and Mrs. Smith for several years. Both brides are popular young ladies. The newly weds will make their home in or near Narrows.

NEW COAL MINE

Mr. and Mrs. Thomas Smith, some time ago, leased coal rights on their farm, between Hartford and Bishner, to Mr. Geo. B. Kirkwood, of Madisonville. A mine is now being opened and will be ready for operation in about 60 days. The mine is near the railroad and arrangements have been made with the railroad company to construct a switch at his point.

RAY CHAPMAN, KILLED IN BASEBALL GAME

Was One of Fastest Players in American League—Reared in Ohio County

New York, Aug. 23.—Ray Chapman of the Cleveland Indians, one of the really great shortstops of big league baseball, died at the St. Lawrence Hospital shortly before 5 o'clock Aug. 17. He never recovered from an operation performed three hours before to remove a fragment of bone pressing into his brain following the blow on the head he received when Carl Mays, the Yankee pitcher, hit him in Monday's ball game.

Mays went to the District Attorney's office the morning after Chapman's death had been announced. He showed much depression, but told a straightforward story to Assistant District Attorney Joyce, in charge of the Homicide Bureau, asserting that he pitched a fast straight ball, aimed for the inside of the plate, to Chapman and with no intention of hurting him. Mr. Joyce heard his story declared the occurrence an accident and formally released the pitcher from custody.

Mays says that he thought the ball hit Chapman's bat and fielded it to first base with that idea and did not know that the shortstop had been hurt until he saw him sink to the ground. He says that he looked at the ball after the accident and found that it was slightly roughened on one side. He showed it to the umpire and called his attention to the spot. The roughening probably caused Chapman's death, for it made the ball "sail"—that is, take a freakish jump which the man throwing or the batter watching would not expect.

Mays takes great comfort from the fact that when Chapman regained consciousness in the club house before being removed to the hospital, he said to John Henry, the former Washington catcher, who was one of his closest friends: "I'm all right. Tell Mays not to worry."

Well Known Here

Raymond Johnson Chapman was born near Render, Ohio, County, Ky., January 15, 1891, and was a son of Everett Chapman, and a grandson of Mr. and Mrs. Ellis Chapman, of Beaver Dam. He has many relatives and friends in Ohio County. While Ray was yet a youngster, his father removed with his family to Herrin, Ill., where young Chapman and Bob Veach, the famous Detroit outfielder, began their baseball careers both becoming professionals in 1910, Chapman going to Springfield, Ill., and thence to Davenport, Iowa. A Cleveland scout, Babe Myers, looked him over in 1911 and bought him for the Naps but turned him over to Toledo for further development. He was called to the Naps in August, 1912, reporting the day Harry Davis resigned as manager.

He batted .312 that last month of the 1912 campaign. His sensational work at short in 1913 was a big factor in making Cleveland the runner-up to the Athletics most of the year. In sliding to third base on the training trip of 1914, he broke his leg and was out nearly half of the season. The Indians finished way down in the race as a result. He played a phenomenal game in 1915, but dislocated one of his knees early in 1916 and was out for 50 games. Since then he has played wonderful ball and been one of the greatest stars of the league. He has played well over 1,000 games in a Cleveland uniform.

Beautiful Tribute

Copies of Cleveland papers printed on the day of Ray Chapman's funeral devote many columns to the ceremonies that attended it. They contain among other tributes to the former Ohio county boy, a copy is full of the sermon preached over his remains.

In opening his sermon Dr. Scullen dwelt on the mysteries of life and death, and took for his text the words of the Bible: "I am the resurrection and the life; he that believeth in Me shall not taste death forever."

"In paying this, our last tribute to one whom we loved and admired as much for his sterling manhood as for his ability as a ballplayer," Dr. Scullen said, "we are reminded of the mysteries of life and death, and wonder how he who had played his part so honestly in our country's great war and in his chosen field could be so suddenly taken from among us. The answer in my text—he that believeth in Me, though dead shall live."

"Chapman played the game of life as he played the game of his profession, cleanly and honestly. He was our friend as a ball player and as

Illinois Central Proudly Calls Attention to Its Record

There is a good deal of talk among unformed people to the effect that the railroads have not been functioning for some time, and are not functioning at the present time.

If this talk were to the effect that the railroads are facing the task of attempting to move a greatly increased volume of traffic with an impaired and insufficient plant, or that the railroads had not kept pace with the growth of the country, it would do no harm, because it would be true, but any statement to the effect that the railroads have not been doing their utmost, and are not at the present time doing utmost, with the facilities with which they have to work, must not be permitted to go unchallenged.

Perhaps the best answer which I can make to this unjust criticism about the railroads not functioning is simply to give here a statement of the gross ton miles of freight handled by the Illinois Central system, per year, for the last ten years, and the number of passengers carried one mile, per year, for the last ten years, which I do, as follows:

Gross Ton Miles of Freight	Passengers Carried One Mile
1910 21,297,062,271	1910 745,818,345
1911 21,889,824,779	1911 811,282,510
1912 21,531,250,666	1912 807,969,807

The Illinois Central is but one railroad system out of many. I do not claim that its performances are any exception to the rule. No doubt many railroad systems have done as well, and perhaps some have done better than has the Illinois Central.

The Illinois Central personnel is anxious to serve the public even better in the future, and very earnest efforts are being put forth in that direction, but I hope our patrons fully appreciate that it will take time to restore our equipment and enlarge our facilities. I promise them that no time will be wasted.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,

President, Illinois Central Railroad Company.

a man. Sterling athlete that he was, he never knew defeat. Courageous, he played his part in life honorably, and he was a shining type of typical American youth and a great example for others.

"Clean, wholesome, gentle and true, he was the idol of Cleveland as a ball player—but above all, was his gentleness and kindness as a man."

Referring to the incident that caused Chapman's death, Dr. Scullen pleaded that "no hostile word should be uttered against the man who was

the cause of the unfortunate accident."

"He feels the outcome of it more deeply than most of us do," he said. "The great American game of baseball does not develop men who would willingly try to injure another participant in the game, and the game could not produce a man capable of killing another man. Chapman, we know, would be the first to deny any thought of revenge if he could but speak."

Dr. Scullen's final words were:

"May the soul of this gentle, kindly youth, whom all Cleveland loved, rest in peace."

Do you have trouble with the wicks of your oil stove sticking and hanging? Yes, we all do, but the Boss-Twin-Lift won't, for it is arranged different. It pushes the wick up from the bottom on two sides instead of a small cog wheel on one side. And it burns 99.66-100 per cent air to 34-100 per cent oil.

A Word for the Ambitious Boy:

MANY an ambitious farm boy is being tempted to go out into the world to seek his fortune. If you are considering deserting the farm, you are facing a crisis in your life that deserves much earnest thought and study.

Talk the matter over with men who ought to know the right course for you. Don't decide too hastily. Perhaps your father will take you into partnership, give you an interest in a plot of ground or in some livestock that will be the foundation of a fortune. Statistics show that the chances for business success are ten to one in favor of agriculture.

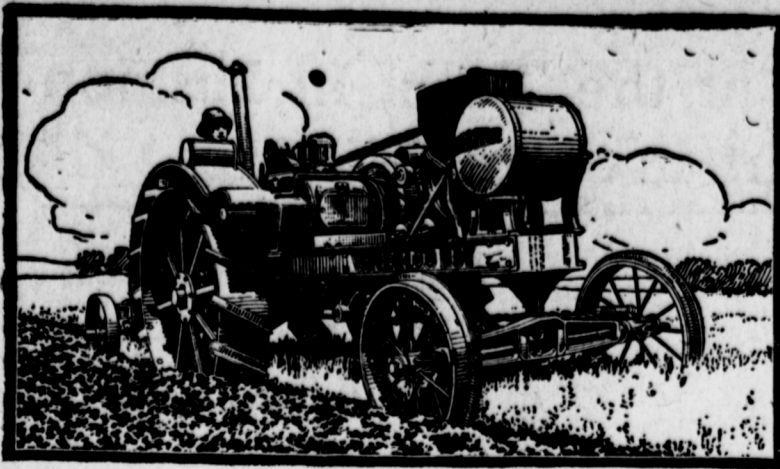

For every ambitious country boy there are a dozen city toilers, sick and tired of the endless grind, struggling desperately to keep abreast of the cost of living, longing for a chance to take their families to God's great out-of-doors. Millions of men of the city are envying you this minute because you are young and on the farm. They know that the four-leaf clover of your good fortune is growing by your home doorstep.

Good, modern, labor-saving machines are taking the drudgery out of farming and putting still more profit into it. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P.O. plows, etc. Such machines add to the profit and pleasure of day's life.

A Waterloo Boy Does Your Work the Way You Want it Done

The Waterloo Boy gives you service that pays most—the service you want. It does your work the way you want it done.

Its twin-cylinder engine gives you 12 H. P. at the drawbar, and 25 H. P. on the belt. It burns kerosene, and by means of a patented manifold conveys every drop of this low-priced fuel into rugged, positive power.

A pump, fan, and radiator cooling system holds the engine at the proper temperature for correct lubrication, and maintains enough heat to insure complete combustion. The radiator holds thirteen gallons. You don't have to stop in the field every few hours on a hot day and fill it. That's real service.

Accessibility and simplicity of construction make the Waterloo Boy a real farmer's tractor. Two-cylinder

design permits large, rugged parts, also fewer parts. Fewer parts make it easy to understand. It's no trick to care for a Waterloo Boy.

A draw bar shift lever, which enables you to shift the hitch either to the right or left of center, is a great convenience when plowing on hillsides or in finishing lands. Your plows take full cut at all times.

The Waterloo Boy is especially strong and rugged in its construction. It stands up under the most difficult and trying conditions of your farm work. Its various parts are designed to meet every possible strain.

The Waterloo Boy Engine runs without vibration. Its well-balanced weight provides proper traction in soft ground. Hyatt Roller Bearings conserve power by reducing friction.

You have to see the Waterloo Boy to fully appreciate it. Come in and we will show you and tell you why the Waterloo Boy is the right tractor for your farm.

MINISTER SAYS WOMEN SHOULD LOWER SKIRTS

Calls Practice Shameful and Sees Danger to Young Girls In Fashion

Women who dress to display the curves and forms of their bodies were roundly scored by the Rev. E. B. Hatcher, news editor of the Western Recorder, at the Deer Park Baptist Church in a talk on "the present growing scandal of woman's indecency in dress."

"A wave of careless, loose dressing is sweeping the country today," the Rev. Mr. Hatcher exclaimed. "Women are placing their physical attractions on a plane higher than that which they place their souls. They are giving prominence to their bodies; they are shamelessly exalting them in public."

The Rev. Mr. Hatcher's text was from Timothy: I desire that women adorn themselves in modest apparel with shamefacedness and sobriety." In his sermon he quoted from the Scriptures that the prophet Isaiah, pointed out the immodesty in feminine apparel prior to the fall of Jerusalem.

"In the streets," the Rev. Mr. Hatcher said, "we find that there is a lowering of the standards of womanly dress. In all Christian lands, the tendency of women to exhibit their bodies always has been regarded as a tendency toward immodesty. Yet we find this to be the case in the streets, on the trains and wherever there is a public gathering."

The speaker declared that this tendency is positively startling. It is spreading, too, he pointed out. "Just think of the young slip of a girl who walks along the street dressed in shortened skirt, a peek-a-boo waist, and a low neck blouse. Fear for her. Try to divert her from the path in which she is walking," he admonished.

In the city of Ephesus, where the young preacher, Timothy, lived, there was the same trouble, according to the Rev. Mr. Hatcher.

"The Apostle Paul," he said, "urged the women to go against the current and appear in public only in modest apparel, to clothe themselves with a view toward modesty rather than to aim at the pretensions and the spectacular."

The Rev. Mr. Hatcher also denounced the advertisements and illustrations that appear in some of the newspaper and magazines.

"Whenever a woman is concerned in any way," he said, "the advertisement seeks to display her as sensuously as possible. This is to be regretted, for it works on the mind, especially on the mind of the young boy and the young girl who read it."

Asserting that he was not indicting women in general, the Rev. Mr. Hatcher paid tribute to what he called the "bulk of society," the women who dress modestly, who conduct themselves discreetly, who place the beauty of the soul above the beauty of the body.

"Who is to blame?" he asked. "Who is responsible for this regrettable tendency, this excessive exposure of the body? Mothers, I urge you to check your daughters in the paths they are traveling. Girls, I urge you to emphasize the beauty of your intellect and of your soul."

The Rev. Mr. Hatcher explained that his talk was based on observations of the last two or three weeks. He called attention to the careless spirit displayed at dances, theater parties and in automobile riding at night. After the sermon, he said that he had not been to any bathing resorts, but that if the dress there is as immodest as he has been told—why, "conditions are deplorable."

After preaching at the same church next Sunday morning and night, the Rev. Mr. Hatcher will go to Blue Mountain, Miss., to take the pastorate of the Lowrey Memorial Baptist Church.—Courier Journal.

HARTFORD HERALD FORCE ORGANIZES FIRST NEW-PAPERMAN'S CLUB

L. G. Barrett,
Dear Sir:

Your letter of the 18th received. You have made a good start but you can do better. We want the names of every man and woman engaged in newspaper work who favor the election of Cox. This includes printers and every other department of the paper. We have started you off as the first Kentucky club and would appreciate it if you would boost the organization in your vicinity at every opportunity. Send us the additional names as soon as you obtain them.

Very truly yours,

"SLUMBERLAND STORIES"

(By Pearl Craddock, McHenry, Ky.)
The dreadful quarrel that had lasted so long was going on between two vegetables in Mrs. Pilot's garden. It was the Bean and Corn. All morning long, the other vegetables could hear the Bean say, "and if I am not so beautiful as you, I give to the world more than you. See? Upon my vine there are gallons and gallons of nice, fine beans, and you only have three roasting ears upon your stalk. See? What a great difference."

"Oh, that's just your view of it all. I have many and many grains upon my three ears of corn, you see, and it is these grains that make so many fine cattle in this country. Of course you help out when one is in need of something common to eat. But I am set on the table nearly always when company comes and every one likes me for at times I am very hard to get."

"Well, company generally thinks the same of me, and I tell you somebody else who thinks a great deal of me, and that is the little hungry school child. The first thing he calls for is his nice plate of Beans and Corn bread."

"And what does—"
Just then the quarrel was ended for some one was coming along the bean row gathering beans, and some one was coming along the corn row gathering corn.

"Oh! What beautiful beans I never saw half so many on such a little vine."

"Look, John!" exclaimed Mrs. Pilot, "see, this long bean? almost as large as a butter bean. I know, almost, that would bring a prize, it certainly is wonderful."

"Just look at this fine corn. The largest ears of corn I nearly ever saw," said John.

"But it can't beat the Beans any in size."

"No, it can't," said John, "I am thinking of saving this stalk of corn for seed and that vine of Beans for seed and try planting them together next year."

That's just the right idea, John. I have my bucket full of beans, lets go."

"I think two ears of this corn will be enough for us, don't you?"

"Yes, just a plenty."
After the newcomers had left, the bean looked up at the corn with a feeling of delight, and said, "What were you going to say just before they came in?"

"Well, you know you said the first thing the little hungry school child would call for would be his plate of beans and cornbread. What is the cornbread made of?"

"The cornbread contains different things," said the bean.

"But you would have no cornbread unless you had meal, and what is meal made of? ha, ha," said the corn. "I guess we are, after all, on the same equal, don't you?"

Then a soft breeze caused the little bean vine to nod, to tell that it really was.

Fordson Tractors

Ohio county is falling far short of her duty in raising wheat. We should at least raise enough wheat to bread our inhabitants. It is true that occasionally we have a bad season, and a big fall off in acreage and yield is inevitable, but we must not get discouraged. We must double our energies, strengthen our soil and the general average will be satisfactory. Some claim a shortage in labor. That's true, but a FORDSON TRACTOR will easily supply this deficiency and make the growing of a good crop of wheat more certain.

We Are Ready To Demonstrate

on your own farm the superior advantages of this famous farm horse. You can run your tractor all day and part of the night, or all night if you please. You have no idea what you can accomplish with a FORDSON TRACTOR until you try. We have the best tractor on the market. We are prepared to give you the service you need in keeping your tractor going. We have experienced mechanics and operators who know the game, and they are at your service at any time you need them.

Remember, the FORDSON is the best tractor, and remember we have the only real service department in the county on tractors.

on. So it becomes gradually evident that
the first dress should be preferably a practi-
cal one.

In that class are simple, fine things of
serges, tricelines, etc., in dark colors. Black,
and navy blue prevail, although simple in
silhouette and embellishment, the styles are
distinctly smart.

Our collection is now complete and we

On the Crutcher & Starks Special

The farmer is proud of his fine products of the soil—our pride is in the good clothes we sell.

At the Kentucky State Fair—the farmer exhibits prize cattle, fancy horses and ribbon-winning produce. He takes pride in the achievement he has gained through hard work and study.

Crutcher & Starks' exhibit of new fall clothing deserves special attention, too. Two Stores—4th and Jefferson and Seelbach Hotel.

Real blue-ribbon winners—because they are fine in their American style—sincere in their materials—long-lasting in their service. They are more than just good clothes—they are good appearance; they bring true clothes-satisfaction.

Visitors to the State Fair are invited to make these stores their meeting place—their headquarters. We are at your service.

STATE BOARD OF HEALTH RECEIVES MANY COMPLAINTS

Complaints have reached this Board that the regulations of the State Board of Health in regard to the candling of eggs from May 15th to January 15th of each year are not being observed.

It was estimated in 1917 that 10,015,000 cases of eggs were lost as food due to rotting and improper handling. This meant a financial loss of over \$100,000,000. The candling of eggs by buyers and shippers will force them on the market while fresh and prevent the shipping of rotten eggs and greatly reduce this loss.

The regulations to insure this candling can be condensed as follows:

CANDLE ALL EGGS bought or sold between the dates of May 15th and January 15th of each year.

FARMERS, COUNTRY MERCHANTS, HUCKSTERS AND SHIPPERS, can easily and cheaply save eggs and money by selling them while fresh and observing the rule that requires an egg candling certificate in every case of eggs put on the market.

BUYERS OF EGGS candle all eggs at time of purchase. Pay only for good edible eggs; returning the bad ones to producer. Keep statement of purchase showing number of good and bad eggs in each lot. Put candling certificate in each egg case.

SHIPPERS OF EGGS. Ship eggs as soon as possible. See that all eggs shipped have candling certificate in case.

RECEIVERS AND BROKERS. Refuse to accept any case of eggs that does not contain a properly signed and dated candling certificate.

KENTUCKY FARM BUREAU ACCOMPLISHING THINGS

Wherever presented the Farm Bureau organization is accepted enthusiastically by the farmers of Kentucky. This has been the experience in every locality visited by organizers.

What has just happened in Hickman County is typical. At a meeting held at Clinton practically every farmer present signed up with the Farm Bureau.

Men of the Fulton County Farm Bureau were responsible for lining up the farmers in the adjoining county of Hickman. Charles Nugent, President; J. W. Mayes, Secretary; O. L. Cunningham, County Agent; Leslie Nugent, Edward Thompson and Samuel Wilson, of the Fulton County Bureau, assisted by Geoffrey Morgan, secretary of the Kentucky Farm Bureau Federation all visited Clinton and took part in the meeting.

Dues were fixed at \$12.50 per annum. A temporary organization was formed consisting of the following officers: President, H. V. Whayne Columbus; Vice President, S. C. Griffey, Moscow; Secretary, L. B. DeWeese, Clinton; Chief Booster, E. F. Hodges, Clinton.

Arrangements were made to conduct a vigorous membership campaign during the next two weeks. The Fulton County Bureau will furnish the speakers for this campaign. Every County in the First and Second Congressional Districts is now organized with the exception of Lyon and Hancock.

Buys Limestone

The Executive Committee of McCracken County Farm Bureau has by unanimous vote decided to buy limestone and sell it to the farmers at cost. Already eleven cars have been ordered and will arrive from August 15th to October 1 and will be distributed at Paducah, Heath and Maxon. The bureau also leased a plot of ground on the side track at Maxon and at Heath for the purpose of erecting a bin in which to store limestone and phosphate and thereby have it available to farmers at all times.

There were between 1600 and 1800 people at the Annual Field Day and Farm Bureau picnic at the Lone Oak Experiment Field, McCracken County, to hear the talks on the results of the use of fertilizer on the experiment fields. General B. H. Woods, president and Geoffrey Morgan secretary, of the Kentucky Farm Bureau Federation both made addresses.

This was the largest crowd that ever attended such a meeting in McCracken County and much of the credit is due E. J. Kilpatrick, County Agent.

Hold The Wool

The Farm Bureau wishes to give publicity to the statement of John R. Humphrey, head of the Department of Markets, University of Kentucky, who has just returned from the East where he investigated the wool market. Mr. Humphrey says: "At the present time wool is not moving because the mills are not buying except for immediate needs. The feeling in the trade is that the market will be stronger and more active by September or October. Wool firms advise farmers to hold their wool and I agree with that advice."

ment of Markets, University of Kentucky, who has just returned from the East where he investigated the wool market. Late Summer Radishes

Lexington, Ky., Aug. 28.—Now is the time to sow late spinach that of the garden and thoroughly prepare the soil for some late radishes. Since the radish is a quick maturing and hardy plant the white Vienna and Chartiers varieties can be planted at this time without any danger of them becoming pithy. These vegetables are especially delicious and every farmer should have some in his garden this fall.

Make Room In The Garden For Some Spinach

Lexington, Ky., Aug. 28.—Now is the time to sow late spinach that can be carried through the winter by mulching with straw. The New Zealand is the best variety and it will grow throughout the entire summer. Seed that is sown now should be allowed to grow and develop as much as possible before the straw mulch is applied. In case the plants become large some of them can be removed thereby preventing a crowded condition among the rest so that they will have a chance to become better established before winter.

Early Spring Onions

Lexington, Ky., Aug. 28.—The first week in September is the time potato onion sets should be put out. Remember that onions are easily choked out by weeds and if a little time and attention is given to the late onions in the fall it is possible to have green onions very early in the spring.

Get Crates Ready For Storage

Lexington, Ky., Aug. 20.—Every year the Experiment Station has numerous inquiries asking how to store fruits and vegetables. It is usually found that farmers having the most trouble keeping fruits and vegetables do not place their fruit in proper containers. It makes little difference whether a cellar or cave is used for a storage room the boxes, barrels or crates must be provided with suitable openings for ventilation. If barrels are used for storage they should have holes bored in the sides and bottom; if boxes are used openings should be cut so as to permit free passage of air. Perhaps the best container is a slat crate. This gives excellent ventilation on all sides and when good, healthy fruit is stored in these crates it usually keeps well. Of course it is taken for granted that any fruit or vegetable to be placed in storage should be handled very carefully. Bruises caused by rough handling may not show immediately but sooner or later rot will develop.

HELPFUL WORDS

From a Hartford Citizen

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region? These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get weaker fast. Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Hartford testimony. E. L. Ashley, farmer, Griffin St., Hartford, says, "I consider Doan's Kidney Pills a reliable kidney medicine. When I suffered with backache and a too frequent action of my kidneys, Doan's helped me. They relieved my back and made me feel better generally."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ashley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement.)

OFTEN CARRIED OFF THE STREET THEN SENT HOME

Louisville Woman Tells How
Trutona Relieved Her Of
Terrible Smothering Spells

Louisville, Ky., Sept. 1.—"After everything else had failed time after time, and five doctors had given up my case as hopeless, Trutona has entirely relieved my troubles, and I've gained twenty pounds in the bargain," says Mrs. Henrietta Russell, who lives in Louisville at 1041 South Seventh Street.

"I've suffered for twenty years with stomach trouble, and lately with sudden terrible smothering spells. On several occasions these spells attacked me while on the street, and I had to be carried into a doctor's office, or some drug store, and sent home. Most everything I ate caused me to be seized with cramps, which fairly doubled me up. I'd have to sit that way until I vomited, as that was my only means of relief. The doctors who gave me up, said my only chance was an operation. Then's when I decided to try Trutona."

"Thanks to this wonderful miracle medicine, I'm well and healthy today. I think if my stomach were to be any stronger, it would have to be made of iron. I have a better appetite than I've ever had, and I'm eating anything and everything. I haven't felt a sign of the former terrible smothering spells, since I began taking Trutona, and I go down town, or anywhere, without feeling a bit afraid, any more. You'll always be able to find a bottle of Trutona in my house from now on."

Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthy appetite and assists in the assimilation and digestion of the food.

Trutona is sold in Hartford, Ky., at James H. Williams, and in Beaver Dam, at the Beaver Dam Drug store. —(Advertisement.)

Protect Your Child—And Others

The beginning of school brings coughs and colds to many children. At the first sign of a cold it is well to give a child a dose of Foley's Honey and Tar Compound, that safe, reliable cough medicine. Mrs. J. B. Pluijmers, 246 Autism St., Passaic, N. J., writes: "Foley's Honey and Tar certainly is the best cough and cold remedy I ever tried for my little boy." Children like it. Good for coughs, colds, croup, whooping cough, hay fever and asthma. (Adv.)

CAMP KNOX WAREHOUSE IS BURNED; LOSS \$1,500

Fire of undetermined origin destroyed a store house belonging to Second Field Artillery arch, Camp Henry Knox, at 4 o'clock Wednesday. Two automobile trucks were badly damaged and a quantity of oil was consumed. The damage is estimated at \$1,500. Military authorities are investigating the cause.

How One Woman Was Helped

Althea Walker, New River, Pa., writes: "I have been troubled with weak kidneys for two years. I took Foley Kidney Pills and they helped me fine. I rest fine all night and now have no trouble with my kidneys." When the kidneys do not properly do their work, acids and poisons left in the system cause weak and lame back, dizziness, puffiness, swollen ankles and joints, aches, pains, soreness and rheumatic pains. Foley Kidney Pills have given relief to thousands of men and women. —(Advertisement.)

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.

DESIRE LEAGUE

Geneva, Switzerland,
August 20, 1920.

The preliminary meeting of the World Conference on Christian Faith and Order, which met in Geneva, Switzerland on August 12th ended to-day. It represented eighty churches and forty nations. A Continuation Committee was appointed of Anglicans, Armenians, Baptists, Congregationalists, Disciples of Christ, Eastern Orthodox, German Evangelicals, Lutherans, Methodists, Old Catholics, Presbyterians, Quakers, and Reformed.

The meeting unanimously adopted the following resolution presented by the American delegates: "The Conference earnestly desires that those nations not yet within the League of Nations will soon become or be admitted members of it."

The meeting developed a new

method of friendly conference replacing fruitless controversy on the differences between Christian churches. All were eager for organic union in the face of unparalleled world conditions and hopeful of the ultimate attainment of it.

The New Season Opens With FINE and PLENTIFUL MERCHANDISE at Much More Moderate Prices

The first of the new Autumn merchandise is here.

It has vastly more interest this year than we have ever known before—a vital significance that means much to our pleasure in showing the goods and your enjoyment in buying the thing that you desire.

**The advance of prices has been halted—
Lower prices are here on many goods.**

Yet never have we been more exacting in our selection of our merchandise. Never have we been better satisfied with our achievements in bringing here the best that the market affords, in styles and assortments that we may be proud to offer and you may be proud to possess.

Day by day, we shall introduce the new things as they arrive. There will be constant interest every day, as beautiful apparel and interesting home furnishings take their places for your inspection and admiration.

Proud days for us—interesting days for you.

Come as often as you can—see everything as it appears—with no obligation to buy until you are ready, and then only when we show you goods that you simply can't live without, sold at prices that you know are moderate and the lowest for which goods of equal excellence can be bought.

Make this store your headquarters during fair week.

Keep Them Growing
Children who are over-thin, listless or delicate, should take

Scott's Emulsion
regularly every day as an aid to growth and sturdiness. Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age.
